As the time draws near for the Baltimore Convention, the unanimity of the popular feeling for Mr. Lincoln becomes more decisive than before. Nothing has been so much feared by the copperheads as his re-nomination. They have therefore been industriously at work for months. endeavoring to undermine public confidence. Their savage onslaughts have been stayed for a few weeks by the impertant events transpiring; but their former malignity was not misunderstood. The integrity, purity and ability of the President, the universal confidence of the people, have been powerful reasons with

The hot beds of Abolition are the most carnest in his support, and yet there are certain gentlemen who affect to be in favor of a still more radical candidate. In view of the fact that the soundest antislavery man of the nation are in favor of Mr. Lincoln's re-nomination, it little becomes the malconients who are to meet in this city to prate about a more radical anti-slavery policy. The order was issued when the Government was not yet in full possession of all Bisir, and that the original order was althe facts. The haste in which it was done | tured and falsified after it had passed from is evident from the fact that the five telegraph operators in the Independent Telegraph Office who were sent to Fort Lafayette and who have since been released, had nothing whatever to do with the affair more than to send a dispatch to Boston denvine its authenticity.

We are gratified, therefore, to see that ing engaged in a liquor speculation, and of the genuineness of the order in question the liberty of the Press is not to be interfored with, while we have the assurance that the men who perpetrated the forgery from Kentucky for the reason that his will be severely dealt with.
